SHURHOLD'S POLISHER WINS INNOVATION AWARD AT MAATS

Committed to bringing the best cleaning solutions to boaters, Shurhold Industries recently won an Innovation Award for its revolutionary Dual Action Polisher in the Boat Care, Coatings, Chemicals and Maintenance Tools category at the 2009 Marine Aftermarket Accessories Trade Show (MAATS) in Orlando, Florida. The awards were organized by the National Marine Manufacturers Association (NMMA) and judged by Boating Writers International (BWI).

This random action, orbital polisher gets a professional finish every time without damage or swirling, keeping a boat looking good for a fraction of the price. "It puts the results of a professional detailer in the hands of a do-it-yourselfer," said judge Alan Wendt, editor *Marine CEO* magazine.

Specifically-designed for use on boats, this polisher has an extra long 20' power cord with a GFCI plug for protection in damp environments. An adjustable soft-touch, D-handle creates ideal hand positioning, while the soft-touch head provides comfort. At only 4.8 lbs., it's easy to maneuver.
